This report was created on FEB-28-2017  
Results are based on data extracted on FEB-06-2017

**NOTICE:** EPA is aware of inaccuracies and underreporting of some data in the Safe Drinking Water Information System. We are working with the states to improve the quality of the data.

The tables below list all violations that the state reported to EPA for this water system. Health-based violations are listed first, followed by monitoring, reporting, and other violations.

**Health Based Violations:** amount of contaminant exceeded safety standard (MCL) or water was not treated properly.

*No health-based violations found. EPA has no record of any health-based violations reported by the state for this water system (Violations within last 10 years are included in this report).*

**Monitoring and Reporting and Other Violations:** system failed to complete all samples or sample in a timely manner, or had another non-health-based violation. A significant monitoring violation means the system failed to take a large percentage of the required samples. Non-significant monitoring violations indicate that the water system failed to take some of the required samples, but did do some of the required sampling.

Type of Violation	Compliance Period Begin Date	Compliance Period End Date	Drinking Water Rule or Contaminant	Violation ID
Monitoring and Reporting (DBP)	APR-01-2008	JUN-30-2008	Chlorine	7134334

Follow-up Action	Date of Response
St Compliance achieved	JUL-22-2008
St Violation/Reminder Notice	JUL-17-2008

### For more information on:

**Watersheds** (the land areas drinking water comes from): Learn more about the health of this [watershed](#).

**Drinking water in your state**

**Drinking water in general:** Visit EPA's [Office of Ground Water and Drinking Water](#) web site or call the Safe Drinking Water Hotline (1-800-426-4791). EPA has also prepared [information](#) about various regulated drinking water contaminants.

**Advanced tools for accessing EPA drinking water data:** <https://www.epa.gov/waterdata/drinking-water-tools>

**Research Data:** As well as monitoring the levels of drinking water contaminants for which EPA has set standards, EPA, states, and water systems also carry out studies of contaminants that may need to be regulated in the future. For more information about these, please see the [National Contaminant Occurrence Database](#) and the [Microbe and Disinfection Byproducts](#) study database.

### Additional Information

In fiscal year 2005 (the last year for which EPA has complete data) based on information reported to EPA by the states, 1.5 percent of all systems reported a treatment technique violation, 6.1 percent of all systems reported an MCL violation, and 24 percent of all systems reported a reporting/monitoring violation.
